The Tubacex Group

A Global Leader in Seamless Stainless Steel and High Nickel Alloy Fittings and Special Components

The Tubacex Group has become one of the world's leading Seamless Stainless Steel and Nickel Alloy tubular solutions providers.

Founded in 1963, Tubacex brings the experience of a world leader combined with important R&D effort, which is required to meet the future needs of the industry.

The Tubacex Group, which exports to over 100 countries worldwide, has a share of around 15% of the world market for Seamless Stainless Steel tubular solutions, with a total workforce of around 2,400 employees. The headquarters are in Llodio, 25 Km (15 miles) from the Port of Bilbao, in northern Spain.

The Tubacex Group's integrated production process includes a steel making plant, several extrusion and cold finishing mills, trepanning facilities, fitting and special components producers and an extensive network of service centers which provide a wide range of added value operations to the Group's portfolio.

Tubacex: a global integrated group at your service

Fittings and special components are manufactured in IBF (Italy), Tubacex Taylor Accesorios (Spain) and Tubacex Awaji (Thailand).

These manufacturing units are part of a fully integrated value chain:

The Group's steel plant, Acerálava, in Spain, provides a customized list of steels and is able to offer exceptions to the standard. Tubacex's metallurgical engineers are devoted to the development of sophisticated steels capable of operating in the demanding environments of the future.

The Seamless Pipes&Tubes Manufacturing Division constitutes the leading worldwide producer of Seamless Stainless Steel tubes & pipes and supplies hollow bars to the Group's fitting producers.

A worldwide Service Center Network (Tubacex Service Solutions) offers highly competitive distribution and a wide range of additional services to our customers.

Tubacex brings the experience of a world leader in the manufacture of Stainless Steel Tubular Solutions.

The Tubacex Group

Cooperation with our customers

Flexibility

In the chemical composition of materials & deliveries

Reliability

Of a fully integrated company

Customers are the main drivers of the Tubacex Group's activities and efforts. The organization and investments are continuously being adapted to meet the increasing requirements that companies face every day in highly demanding activities in the Oil&Gas, Petrochemical, Chemical and Power Generation industries, among others. These new challenges are driving Tubacex to implement the most advanced verification equipment and inspection procedures to assure product quality and excellent service, backed by a fully integrated company with a worldwide presence.

OIL AND GAS EXPLORATION AND PRODUCTION

New challenging corrosive environments and applications are driving the Tubacex product portfolio of corrosion resistant alloys in both onshore and offshore E&P, focusing particularly on:

- Oil Country Tubular Goods (OCTG)
- Umbilical tubes and a wide range of seamless stainless and high nickel alloys for subsea applications (risers, flowlines, manifolds...)
- Tubes for platforms (piping systems, separators...)

REFINING, PETROCHEMICAL AND CHEMICAL INDUSTRIES

Tubacex offers an extensive portfolio of grades and sizes to fulfill design expectations in relation to various areas and equipment in the Petrochemical and Chemical industry, particularly:

- Regas Facilities
- Refineries
- Heat exchangers
- Reactors
- Furnaces, Heaters and Re-heaters
- Other processing industries.

FERTILIZER PRODUCTION

Fertilizer production materials need to withstand severe corrosion conditions. Tubacex supplies pipes, tubes & fittings for the equipment involved in the production of Urea, Ammonia, Nitric acid, Sulfuric acid, Phosphoric acid and Melamine.

POWER GENERATION

Tubacex's manufacturing range covers the main stainless steel heat resistant grades used in boiler equipment for:

- Critical equipment
- Ultra Super Critical (USC) equipment
- Industrial power plants
- Nuclear power plants.

STOCK FOR DISTRIBUTION AND OTHER INDUSTRIES

Tubacex's manufacturing range covers the main Seamless Stainless steel portfolio for distributors worldwide:

- Pipes and Tubes in accordance with all relevant standards
- Hollow Bars for metalworking industry through Tubacex Service Solutions
- Instrumentation and hydraulic tubing for a wide range of high value-added industries, including automotive and aerospace
- Round Bars.

Fittings and Special Components portfolio

The Tubacex range includes the design and manufacture of butt welding fittings, tube bends, elbows, tees, reducers and caps (both seamless and welded), complementing the wide offer of tubular solutions by IBF and TTA companies. Furthermore, IBF offers a wide range of special parts (manifolds, laterals, special reducers...)

- Located in San Nicolò, Italy, the IBF fittings division manufactures fittings and special components in a range that goes from 1/2" to 72" NPS for a wide range of end users (Oil and Gas, Power Gen, Chemical, Petrochemical and Nuclear markets). Specialized in special and large scale pieces, cold drawn dimensions are mainly sourced from its participated company CFF.
- Located in Artziniega, Spain, Tubacex Taylor Accesorios (TTA) manufactures fittings (elbows, return bends and reducers, both concentric as eccentric) mainly for the petrochemical industry, perfectly complementing the portfolio of the rest of the Group and particularly the seamless tubes for furnace applications, heaters and re-heaters. TTA size range goes from 1 1/2" up to 12" NPS, in short and long radius as well as special radii.
- Located in Amphur Muang-Samutprakarn, Thailand, Awaji Stainless manufactures stainless fittings (seamless and welded) in austenitic grades from 1/2" to 12" in both ASTM and JIS standards.

The Tubacex Group's fitting and special components extensive production program is suitable for all kinds of projects. The range offered is one of the widest in the industry:

MANUFACTURING RANGE - FITTINGS AND COMPONENTS

Seamless	from 1/2" to 44"
Welded	from 1/2" to 72"

Hot drawing, bending and cold drawing processes
Any thickness

Materials covered include a wide range of grades, from carbon steel to titanium, focusing on Stainless Steel and High Nickel Alloys - as described for trepanned pipes. The Tubacex Group maintains a high stock level in finished and semi-finished products, as well as base materials, to provide full flexibility and an extremely competitive lead time.

Product portfolio

- The Tubacex Group's Fittings program covers all kind of fittings (Butt welding fittings & elbows, tees, reducers, caps) from standard to special products, manufactured by hot drawing, bending or cold drawing.
- In addition to fittings, special components such as laterals, manifolds, tees, stress joints, weldolets are manufactured at IBF fittings and special parts division, with a clear trend to a more particularized design.

FITTINGS	SPECIAL COMPONENTS
Butt Welding fittings & elbows	Special components
Tees	Manifolds
Reducers	Laterals
Caps	3D / 5D Bends / Stress Joints

- In order to satisfy the growing market demand for specific customized solutions, the Tubacex Group has made its production routes more flexible, being able to provide different manufacturing options per product. Specific designs are defined and calculated by the engineering department.
- The IBF technical department designs the products in compliance with all applicable Standards/Codes (ASTM, ASME, API, EN, UNI, BS, DIN, Norsok, GOST, etc.) to satisfy all customers' technical requirements by means of the best design software. The technical department also supports production, designing heavy tools (e.g. dies) to be used during the manufacturing process.

Quality, Health & Safety and the Environment

The main goals of the Tubacex Group are to provide customers with the highest quality product, ensuring that all employees work in conditions that are free of health and safety risks and the manufacturing activities do not have an impact on the environment. The result of this commitment is the Certification of the Quality Management Systems in compliance with the leading Standards/Codes and other important approvals by leading customers.

STANDARDS / CODES CERTIFICATION

The Tubacex Group manufactures products in accordance with the main international Standards/Codes (e.g.: ISO, ASME, ASTM, NACE, EN, DIN, API, BS, SIS, GOST, JIS, PED, etc.) and customer requirements (e.g.: SHELL MESC, etc), and all its Quality Management Systems are approved by leading external bodies (e.g.: ASME, Lloyd's Register, TÜV, DNV, BV, etc.).

QUALITY MANAGEMENT SYSTEM CERTIFICATES		
Area	Standards & Codes	External Bodies

 Austenitic Stainless Steel Pipes and Tubes According to En 10216-5 or Equivalent Standards.

Complete list of approvals and certifications is available on request.

Tubacex Around the World

TUBACEX TAYLOR ACCESORIOS

Located in Artziniega, Spain, Tubacex Taylor Accesorios (TTA) manufactures fittings (elbows, return bends and reducers) mainly for the Petrochemical industry. Sizes range from 1 1/2" up to 12" NPS, in short and long radius as well as in special radii.

IBF

Located in San Nicolò, Italy, the IBF fittings division manufactures elbows, tees, reducers, caps and special components (weldolets, manifolds, laterals, stress joints, etc.) in a manufacturing range from 1/2" to 72" NPS.

TUBACEX AWAJI

Located in Amphur Muang-Samutprakarn, Thailand, Awaji Stainless manufactures stainless fittings (seamless and welded) in austenitic grades from 1/2" to 12". The company is able to manufacture in both ASTM and JIS standards - for the demanding Japanese market.

Currently the Tubacex Group exports to over 100 countries worldwide from its manufacturing sites and warehouses. The company has 15 sales offices and an extensive network of agents in diverse countries, giving it a global presence.
